Who We Are

Stone Age Manufacturing, Inc. is a family-owned and operated business, whose background is in masonry and fireplace construction. Our original product, the Stone Age fireplace kit, arose from needs in the marketplace identified through our own experiences in the field with our affiliated installation business in our local market. Stone Age products have been well received throughout the construction and hardscape industries and we have enjoyed significant growth each year since our incorporation.

Recognition of the challenges typically faced in real-world installations continues to drive our product development, as all Stone Age products are designed to offer a faster, more efficient and more durable way to construct popular hearth and outdoor room products, while delivering greater consistency and higher quality than comparable products or traditional construction techniques.

Stone Age Manufacturing takes pride in our heritage as a family-owned business, and is committed to using our extensive knowledge and masonry expertise to produce the finest quality products available, while delivering exceptional value at a reasonable cost, and providing outstanding personal service to each of our customers.

Stone Age Manufacturing is located in the Tulsa, Oklahoma metropolitan area, and is proud to manufacture our products in the United States of America, using materials produced in the U.S.A.

What We Do

Stone Age Manufacturing, Inc. produces pre-engineered masonry fireplace kits for indoor and outdoor applications, as well as fire pits, brick and pizza ovens, and kitchen island systems, all in kit forms designed for ease of assembly by experienced masons or novice installers, while providing strength, durability, and outstanding performance in all climates and conditions.

With our introduction of the Prebuilt Series™ product line, we can now offer completely preassembled components for the outdoor room, with models to cover any application, and a wide variety of finish materials and other options, allowing the delivery of truly customized outdoor living solutions without the extended project timelines of traditional construction, yet with virtually no limitations on selection.

Stone Age Manufacturing, Inc. offers a group of products that increase productivity and profits, prevent quality issues and installation difficulties, and enhance the professional reputation of the contractor or installer. Stone Age products offer the consumer a complete outdoor lifestyle system uniquely adaptable to their specific needs, designed to deliver outstanding performance and years of relaxation and enjoyment.

Mission Statement

Stone Age Manufacturing, Inc. strives to create products which offer a faster, more efficient, and more durable way to construct popular hearth and outdoor room products, while delivering greater consistency, higher quality, and greater value than competing products or traditional construction techniques. Stone Age also strives to provide outstanding customer service, treating our customers as we would want to be treated ourselves.

Operational Goals

- To be the leader in development and production of masonry indoor and outdoor living products.
- To design products that assemble quickly and easily, offering labor savings and increased profit margins to the installer and cost savings to the consumer.
- To design products which perform well under a broad spectrum of operating conditions and unique installation configurations.
- To produce the highest quality products available at a competitive price, without sacrificing product integrity.
- To build and maintain product inventory levels that allow quick and convenient delivery on all orders.
- To constantly improve the quality and production processes of our existing product line.
- To produce a variety of products and options that offer the greatest value possible to a wide range of potential customers.
- To continually build a brand name that customers recognize, associate with quality, and seek out.
- To deliver outstanding customer service to all customers at all times.
- To earn the reputation of a company that all of our customers would prefer to do business with, and would refer to their friends and associates.
- To offer a wealth of marketing and educational materials to our dealers, distributors, and contractors, to increase knowledge and understanding of the quality and value of Stone Age products, assisting in the sale of our products and the sale of projects using our products.

Stone Age PreBuilt Series™

The PreBuilt Series™ outdoor room collection includes preassembled fireplace, fire pits, pizza ovens, smokers and kitchen islands, all based on the most popular items from Stone Age's industry-leading modular masonry kits.

Stone Age Quality

Outstanding quality, performance, and reliability are the hallmarks of all Stone Age products, and the PreBuilt Series™ continues this tradition, delivering a lifetime of enjoyment while adding value to your home.

Handcrafted by Masons

Each PreBuilt Series™ component is handcrafted by highly experienced masons, using natural stone and real brick finishes. Finished units are also water-sealed for added protection against damage from freeze-thaw cycling.

Portable Footings Included

Most products incorporate a portable footing as part of the package, which further simplifies installation, allows the unit to be moved in the future, and may eliminate the need for a building or construction permit in many localities (please check with your local building authority regarding building permit requirements for portable installations).

Custom Tailored to You

Other products offer very few choices and demand you change your design to fit their limitations, but PreBuilt Series™ elements are custom tailored, based on your choices from a wide range of customizable components and a huge selection of finish materials, to deliver your vision of your outdoor room.

American Made Appliances

Stone Age has selected the finest combination of quality and value in American-made appliances for the PreBuilt Series™, delivering outstanding performance and durability, with ease of maintenance, so that you can enjoy a lifetime of care-free outdoor living.

Flexibility and Options

PreBuilt Series™ islands offer a tremendous variety of configurations for your outdoor kitchen, and are designed to seamlessly integrate with the other elements of the product line, providing a complete outdoor room package that will meet your exact specifications, without compromises to style or performance.

Natural Finishes

Stone Age PreBuilt Series™ stone or brick finishes add natural textures and color to other materials and are perfect complements to paver, concrete, tile, or stone patios.

The Stone Age PreBuilt Series™ delivers the high quality and outstanding performance of the Stone Age product line for custom outdoor room projects, with minimal on-site construction time.

A virtually unlimited range of options are available to meet all of your outdoor living needs. PreBuilt Series™ products may easily be installed in phases, allowing even greater flexibility in planning and budgeting.

Your Stone Age distributor can assist you with product selection and ordering. You may also visit www.stoneageprebuilt.com or scan this QR code to view current inventory and special offers.

Fireplace Models

Pre-Built Series fireplaces are offered in 9 different configurations, and may be customized by adding wood storage boxes to many models.

Veranda™ fireplaces offer an 18" firebox opening with an overall height of approximately 71". Average finished weight is 1880 lbs.

New Age™ fireplaces feature 39" firebox opening with an overall height of approximately 8' 6". Average finished weight is 6220 lbs.

Patio Series™ fireplaces are available with 24", 36" or 48" firebox openings with an overall height of approximately 54" for 24"-36" models and 58" for the 48" model.

Average finished weights are 2275 lbs for the 24", 2900 lbs for the 36", and 3600 lbs for the 48" models.

Fireplace Models

Stoned Fire™ fireplaces are offered with 24" and 36" firebox openings, featuring an overall height of approximately 7' 6". Average finished weights are 3760 lbs for the 24" and 4950 lbs for the 36" models.

See-Thru models of the Stoned Fire™ are offered with 24" and 36" firebox openings, featuring an overall height of approximately 7' 6". Average finished weights are 3390 lbs for the 24" and 4380 lbs for the 36" models.

Stoned Fire™

Stoned Fire™ fireplaces are the flagship of the fireplace line, and include an open wood storage area below the firebox. Offered with 24" and 36" firebox openings, with arched or straight lintel, featuring an overall height of approximately 7' 6".

Average finished weights are 3760 lbs for the 24" and 4950 lbs for the 36" models.

PreBuilt Series™ fireplaces include a heavy steel log grate and black galvanized steel chimney cap. All units also include a finish touch-up kit.

Stainless steel or copper chimney caps are also available to fit the Stoned Fire™ and See-Thru fireplace models.

Accessories Included

Log Grate

Chimney Cap

See-Thru

Stoned Fire™ See-Thru or double-sided fireplaces give the option of enjoying the warmth and beauty of the fireplace from two sides. Offered in 24" and 36" sizes, with arched or straight lintel, and an overall height of approximately 7' 6".

Average finished weights are 3390 lbs for the 24" and 4380 lbs for the 36" models.

All Prebuilt Series™ products also include a finish touch-up kit.

Wood Storage Boxes

Additional wood storage is easily added to the Stoned Fire™ and See-Thru fireplace, using our Single or Double wood storage boxes. Storage boxes are 36" wide and 36" tall, and are offered with an arched or straight opening. Specify left or right side mounting when ordering single boxes. Average finished weight is 1550 lbs for each storage box.

New Age™

New Age™ fireplaces provide Stone Age performance in a unique form factor. With their stepped vertical lines, the New Age™ creates a bold visual impression that is equally at home in contemporary settings or traditional surroundings. Overall height of approximately 8' 6", and available with 39" firebox opening width and a straight lintel.

Average finished weight is 6220 lbs.

PreBuilt Series™ fireplaces include a heavy steel log grate and black galvanized steel chimney cap. All units also include a finish touch-up kit.

Stainless steel or copper chimney caps are also available to fit New Age™ fireplaces.

Accessories Included

Log Grate

Chimney Cap

Wood Storage Boxes

Single and Double wood storage boxes are also available for the New Age™ fireplace. Storage boxes are 36" wide and 36" tall, and are offered with a straight opening. Specify left or right side mounting when ordering single boxes. Average finished weight is 1550 lbs for each storage box.

Pedestal Hearth

The New Age™ Pedestal Hearth creates a taller overall fireplace height and sets the fireplace floor level at approximately 26". Average finished weight is 2540 lbs.

Stone will be laid on the Pedestal Hearth to match the pattern of the stone on the accompanying fireplace, however, there will be a joint line where the pedestal and fireplace meet.

Patio Series™

Patio Series™ fireplaces offer the quality, durability, and performance advantages of the Stone Age fireplace, without the drawbacks of many similarly-sized fireplaces.

The Patio Series™ also offers the widest range of sizes available, with 24", 36" or 48" firebox opening widths, and an overall height of approximately 54" for 24"-36" models, and 58" for the 48" model. Firebox opening height is 22", straight lintel design only.

Average finished weights are 2275 lbs for the 24", 2900 lbs for the 36", and 3600 lbs for the 48" models.

PreBuilt Series™ fireplaces include a heavy steel log grate and black galvanized steel chimney cap. All units also include a finish touch-up kit.

Stainless steel or copper chimney caps are also available to fit Patio Series™ fireplaces.

Accessories Included

Log Grate

Chimney Cap

Veranda™

Veranda™ fireplaces were created to deliver all of the features and advantages of a Stone Age masonry fireplace, in a form factor perfectly suited for smaller settings.

Available with an overall height of 71", an 18" firebox opening width, and firebox opening height of 15 1/2". Arched lintel only.

Average finished weight is 1880 lbs.

PreBuilt Series™ fireplaces include a heavy steel log grate and black galvanized steel chimney cap. All units also include a finish touch-up kit.

Stainless steel or copper chimney caps are also available to fit Veranda™ fireplaces.

Accessories Included

Log Grate

Chimney Cap

Fireplace Accessories

Chimney caps in stainless steel or copper are available for the PreBuilt Series™ fireplaces. These styles are available for all sizes of the Stoned Fire™, New Age™, and Patio Series™ models, as well as the Veranda™ fireplace, Mezzo™ and Amerigo™ pizza ovens, and Little Pig™ smoker.

Cooking Cranes are available for all sizes of the Stoned Fire™, New Age™, and Patio Series™ model fireplaces, and is anchored to the fireplace wall. Crane arm is approximately 18" long.

Fire Management Tools allow the user to safely and easily adjust logs and move ashes while hot. 18" handle, 36" total length. For use with all fireplace models.

Fire Pits

PreBuilt Series™ Fire Pits are offered in four sizes and styles, to complement any setting.

All models are made with the same heavy duty, steel reinforced, high-temperature concrete mix used on the Stone Age fireplaces, and are also fully lined in firebrick for even greater durability.

PreBuilt Series™ fire pits feature baseplates with molded feet, which create clearance and allows airflow under the unit, as required for installations on wooden structures.

Large Round

Tall Round

Square

Short Round

Fire Pits

Tall Round Fire Pits feature a robust look, with a taller profile than other models.

Dimensions are 42" w x 27 1/2" t, with a 36" inside diameter, and an average finished weight of 1725 lbs.

All PreBuilt Series™ fire pits include a finish touch-up kit.

Short Round Fire Pits offer a similar style but feature shorter walls, for an overall height at typical seating levels.

Dimensions are 42" w x 16 1/2" t, with a 36" inside diameter, and an average finished weight of 1200 lbs.

Large Round Fire Pits create a commanding presence, with a larger overall diameter and intermediate height.

Dimensions are 48" w x 20 1/2" t, with a 42" inside diameter, and an average finished weight of 1810 lbs.

Square Fire Pits offer a distinctive profile, with sizing similar to the Short Round model.

Dimensions are 42" w x 42" w x 18" t, with a 36" inside diameter, and an average finished weight of 1590 lbs.

Fire Pit Accessories

Top Mounted Grates create an attractive, finished look that is also functional.

Slotted grates make an attractive safety barrier and also allow cooking of larger items. Cooking grates feature a diamond pattern, better suited for cooking smaller food items.

All grates are constructed of welded carbon steel, and have a high-temperature black powder coat finish.

PreBuilt Series™ fire pits include a heavy steel log grate.

Log Grate

Fire Pit Covers help prevent moisture accumulation inside the unit when not in use and also give a clean, finished look.

Our two-piece, 1/8" carbon steel covers have four welded metal handles, for easy placement and removal, and have a high-temperature black powder coat finish.

Fire Management Tools allow the user to safely and easily adjust logs and move ashes while hot. 18" handle, 36" total length. For use with all fire pit models.

Mezzo™ Pizza Oven

Mezzo™ Pizza Ovens offer the flavor of the Old World in a form factor perfectly sized for most families. Featuring an arched cooking chamber with over 800 square inches of cooking surface and a 15 1/2" wide door, the Mezzo™ easily handles the most popular pizza sizes. Cooking surface measures 27" deep by 30" wide. Overall height is approximately 88", with an average finished weight of 2760 lbs.

Mezzo™ Pizza Ovens include a black galvanized steel chimney cap. All units also include a finish touch-up kit.

Stainless steel or copper chimney caps are also available to fit Mezzo™ pizza ovens.

A wood-clad metal door is included with the Mezzo™ oven, as is a matching solid wood door for the lower storage cabinet. Doors are available unfinished, or in clear or brown-stained natural cedar.

Mezzo™ Side Counters

Mezzo™ Side Counters add plenty of preparation surface and double as serving counters. Available in single or double counter configurations. Specify left or right side mounting when ordering single side counters. Average finished weight is 1570 lbs for each storage box.

All Prebuilt Series™ products also include a finish touch-up kit.

Amerigo™ Pizza Oven

Amerigo™ Pizza Ovens offer tremendous cooking flexibility, featuring a 25 1/2" wide arched opening and a cooking chamber with over 1500 square inches of cooking surface, making the Amerigo™ the best choice for large families and those who enjoy entertaining larger groups. Cooking surface measures 36" deep by 42" wide and overall height is approximately 94", with an average finished weight of 4700 lbs.

Amerigo™ Pizza Ovens include a black galvanized steel chimney cap. All units also include a finish touch-up kit.

Stainless steel or copper chimney caps are also available to fit Amerigo™ pizza ovens.

A wood-clad metal door is included with the Amerigo™ oven, as is a matching solid wood door for the lower storage cabinet. Doors are available unfinished, or in clear or brown-stained natural cedar.

Pizza Oven Accessories

Pizza Oven Tools assist the outdoor chef in creating and serving the perfect pizza every time.

Pizza Peels, Bubble Poppers, Ash Brushes, Turning Paddles, and Infrared Thermometers are the essential tools of the outdoor chef and each tool was chosen for compatibility with Stone Age pizza ovens.

Bubble Popper

Ash Brush

Turning Paddle

Pizza Peel

Infrared Thermometer

Fire Management Tools allow the user to safely and easily adjust logs and move ashes while hot. 18" handle, 36" total length. For use with all oven models.

Little Pig™ Cabinet Smoker

Little Pig™ Cabinet Smokers are the ultimate in low and slow smoking for the barbecue connoisseur, in a beautifully finished style that will enhance any outdoor setting.

The Little Pig™ combines a heavy, 1/4" steel framework with multiple access doors for easy access and a 6" thick refractory outer shell for maximum temperature stability, to deliver smoking performance far superior to any other smoker.

Multi-point air vents allow precise temperature control with minimal adjustment. The Little Pig™ features 4, 20" x 23" cooking racks and a hanging hook, for whole pigs or large meat cuts. Separate doors for each section allows individual adjustments of the firebox, liquid/drip trays, and cooking racks. Once you've tried the Little Pig™, you'll never want to cook on anything else.

Overall height of the Little Pig™ is approximately 6' 6" with an average finished weight of 5625 lbs.

Little Pig™ Cabinet Smoker

All Prebuilt Series™ products also include a finish touch-up kit.

Little Pig™ smokers include a black galvanized steel chimney cap.

Fire Management Tools allow the user to safely and easily adjust logs and move ashes while hot. 18" handle, 36" total length.

Chimney caps in stainless steel or copper are also available for the Little Pig™ smoker.

Kitchen Islands

Create Your Layout

PreBuilt Series™ islands begin with the patented Cabinet Component System™ island shell as your blank canvas.

Choose the base island that best suits your setting, or combine multiple islands if desired.

Next, create the appliance layout that fits your lifestyle. Stone Age has several suggested appliance configurations to choose from, or customize a layout to your liking.

You decide what you want and Stone Age will build it for you.

Your Stone Age installer will assist you with appliance installation, final on-site placement, and adding any finishing touches to complete your ultimate outdoor living experience.

Finishing Options

Prebuilt Series™ products are available in a variety of finishes, featuring natural stone or real brick thin veneers, combined with high-strength, man-made stone copings, hearths or counter tops.

The natural stone finish options have been selected to complement the shape and proportions of the individual outdoor room components they will cover, while offering the widest range of colors, patterns and styles possible. Stone Age's selections of thin brick offers an alternate to stone, while giving the beauty, strength and longevity of brick. Our specially developed man-made counter, hearth and accent material delivers the look of real stone, with outstanding strength and performance characteristics for areas of heavy usage.

Notes For Ordering PreBuilt Series™ Products

Items with portable footings are designed to be installed on a bed of crushed rock approximately 6" below the finished grade or floor of the outdoor room, to place items such as island counters, at the proper height. Some items, such as Stoned Fire™ and Patio Series™ fireplaces, and fire pits, do not require placement below grade, as they do not include a footing of this type, and are designed to sit on grade or at the finished floor level. These units should be installed on stable ground, or a grade-level base.

Models designed for on-grade or floor-level installation: Stoned Fire™, Stoned Fire™ See-Thru, Patio Series™ and Veranda™ fireplaces, and all fire pits.

Models designed for below-grade installation: New Age™ fireplaces, New Age™ Pedestal Hearth, all wood storage boxes, all pizza ovens and side cabinets, and all kitchen islands.

Overall finished dimensions of units will be larger than the stated kit dimensions. Kit dimensions are stated to give a basic sizing guideline, as variations in the thickness of the finish materials and how it is applied to the kits, make it impossible to determine exact finished dimensions prior to assembly of the units. Actual finished dimensions will typically be 3 1/2" to 4 1/2" thicker on sides or walls, and 1 1/2" to 2" taller on counter tops, than the stated kit dimensions.

Inside dimensions of fire pit openings will be 2 1/2" to 3" less than the stated kit dimensions, due to the thickness of the firebrick installed in these units.

Suggested appliance layouts for kitchen islands reflect the most popular layouts and appliance configurations, but these may be modified or adjusted to suit the individual customer. Stone Age will build islands to accommodate installation of other brands of appliances if desired. To order, please submit the appliance manufacturer's opening specifications. Stone Age will not be liable for errors in opening sizing due to inaccurate reporting of information or specifications to us. It is the responsibility of the end user to supply Stone Age with accurate dimensions and information for custom layouts.

General Notes on Stone Age PreBuilt Series™ Products

Custom Built to Order

Stone Age Prebuilt Series™ products are custom built to order, based on the customer's selections. Please determine final selections of all options prior to placing order, to ensure accuracy of the order.

Natural Stone Variation

Stone Age Prebuilt Series™ products use natural stone and real brick veneers, installed with mortar joints. No drystack finishes are offered.

As with any natural stone or brick product, there will be variations in color, texture, sizing and shape of individual stones, size of mortar joints, and in installation patterns.

Estimated Construction Times

Estimated construction times for Stone Age Prebuilt Series™ products may vary, based on availability of product, availability of finish materials, and weather conditions, as well as availability of appliances which may be ordered with the product, and are not manufactured by Stone Age. Our goal is to ship in 7 days or less from the date an order of PreBuilt Series™ products is placed.

Common Carrier Mishandling

Stone Age Manufacturing, Inc. provides specially designed and constructed packaging materials to protect against shipping and handling damage, and Stone Age shall not be liable for product damaged through mishandling by common carriers, nor shall such damage be covered by any warranties offered by Stone Age for its products.

Warranties For Items Not Manufactured by Stone Age

Warranties for appliances and other items not manufactured by Stone Age shall be covered by their manufacturer's respective warranties.

Stone Age Manufacturing, Inc. proudly offers an industry-leading 25 year limited warranty on all UL-127 fireplaces.

LIMITED WARRANTY

The products of Stone Age Manufacturing, Inc. (“Stone Age”) have been carefully manufactured and the components assembled to give the customer a quality product. Stone Age warrants to the original purchaser the materials that it provides to the customer against defects in manufacture for a period of twenty-five (25) years from the date of purchase on UL-127 listed fireplaces, for a period of five (5) years from the date of purchase on all unlisted fireplaces, fire pits, and other masonry components. Other accessory items or components offered, but not produced by Stone Age Manufacturing, Inc., shall be covered by their manufacturer’s warranties. This Limited Warranty covers only actual manufacturing defects in the Stone Age product and does not cover defects or faulty workmanship in the installation of the product or the masonry or other structure in which it is installed. This warranty does not cover changes or variations in color of natural or man-made veneer products, nor does it cover normal, non-structural expansion cracking of the kit component or its finish materials. Also this warranty does not cover items that have been damaged due to over-heating, modification, improper storage or maintenance. Stone Age shall repair or replace, at its option, any defective Stone Age product component upon receipt of written notice addressed to Stone Age. This Limited Warranty covers only replacement of any defective components within the product itself occurring during the warranty period and does not cover the cost of installation or removal from a fixed location. NO OTHER WARRANTIES, EXPRESS OR IMPLIED, ARE MADE, INCLUDING IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR PARTICULAR PURPOSES WHICH ARE SPECIFICALLY DISCLAIMED. Stone Age is not liable for damages or injury to persons or property or other incidental or consequential damages.
